A Bit About Me

A highly motivated software engineer with a Bachelor's degree in Software Engineering from Princess Sumaya University for Technology. My objective is to continuously learn and expand my knowledge of software engineering while making a positive impact on society.

I have a proven track record of success through several projects that demonstrate my technical abilities and attention to detail. I aspire to one day attain the role of a tech lead or senior developer, where I could utilize my experience to guide and mentor peers toward technology innovation while supporting my company's success.

Skills

- Currently Learning Angular, Angular Material Components
- Strong knowledge of programming languages (Python, JS, CSS, HTML, C++), with Object-Oriented Programming understanding
- SCRUM Certified
- Code Reviewing Skills
- UML and Technical Writing Literacy: ER, Class,Use Case, etc Diagrams, with experience in visualizing system design.
- Adept in SQL, with previous experience using SQL*Plus for batch querying in Oracle Databases
- Knowledgeable in web libraries (Ajax, Jquery), with and have built a website using WAMP stack
- Proficient in Git/GitHub, with previous projects
- Human-Computer Interaction Evaluation as I have an eye for nonhuman friendly systems
- Software Requirement Elicitation Understanding.
- Linux, Windows, and VirtualBox Experience
- Background in Social Media Marketing and Sales.
- Knowledgeable in Music and Video Editing (BandLab,Inshot)
- Experienced in photo editing (Gimp, SnapSeed)
- Proficient in Microsoft Office, with experience creating complex formulas in Excel and MS Access relational databases
- Native English speaker

Education

Princess Sumaya University for Technology
Graduated: Sep 2022
B.Sc. in Software engineering GPA of "Very Good"

Mayar international Schools IGCSE 2018
8 IGCSE Subjects with an average grade of 80.00%

Work experience

REALSOFT Web Developer Internship 2022
- Received full-time web development training acquiring expertise in modern web development techniques and building modern, component-based single-page web applications using the Angular framework.

Created an Educational Website 2022
- ClassCloud, my graduation project, was developed using JavaScript, PHP, CSS, and HTML and runs on a MySQL database. I also utilized Python and Selenium for testing purposes. I have written a comprehensive technical documentation totaling 165 pages, and the project received a 90% grade.

Augustus Software Marketing Solutions 2020-2021
- Experienced Front Line Sales Representative and Consultant . Managed client interactions, including prospecting, consulting on marketing strategies, and closing deals. Adept in web scraping for potential clients.

Experienced English instructor 2017-2018
- Experienced English instructor for children aged 5 to 14.

Certifications

Professional Scrum Master™ I (PSM I) October 2022 Scrum certification demonstrating fundamental mastery and understanding of Scrum concepts and principles as outlined in the Scrum Guide

- **Python Certification** From The Hope, Nov 2021. Learned Python fundamentals and libraries (Scikitlearn, Numpy, Pandas, Matplotlib) learned through Jupyter Notebook. which lead me to create models/projects in Jupyter Notebook and having a better understanding of machine learning and regression models

Additional Skills

- **leadership and teamwork skills** as a team leader for many university projects, with the ability to guide team members, create plans and work effectively with diverse individuals.
- **Ability to guide the team**, create plans, and work effectively with diverse individuals
- **Skilled presenter** with experience delivering technical presentations.
- Strong problem-solving skills honed through programming projects including an Algorithm comparison project that shed light on some key differences between programming languages
- **Sociable yet professional**, with a track record of successfully addressing online marketing inquiries in a former position,
- **Adept in communication and interpersonal skills**, gained through experience on an agile web development team and in on-field sales negotiations.
- **Proficient in written communication**, from SRS and technical writing during university with a background in creative writing as a personal hobby.
- **Creativity in problem-solving** Demonstrated in problem-solving through programming complex projects and further honed through a passion for songwriting.
- Experienced Acoustic Guitarist
- **US Citizen** eligible to work in the country.
